The material discussed during this 1-day course will be geared toward customizing obesity treatment for improved wellbeing. We will have both national and local presenters speak about these vital topics that affect patient outcomes. There will also be time allotted for participants to have their questions answered during the panel discussions.

Intended Learners
This conference is intended for multidisciplinary members who work with obese patients; these include bariatricians, psychologists, registered nurses, registered dietitians, physician assistants, nurse practitioners, and program managers.
