**Introductory Section Description**
This workshop offers responsive instruction in the theory and applications of hypnosis in a clinical setting. There is a mix of lectures, demonstrations, exercises and small group practice with supervision and feedback. Instructors systematically teach to the learning styles and needs of participants. Course content is organized in a spiral curriculum (conforming to the standards of training of the American Society of Clinical Hypnosis) with topics presented several times. Succeeding iterations of a technique, such as hypnotic induction (initiation), are more complex, increasing participants’ knowledge and skills. After the skill basics, application topics include therapeutic communication, treatment planning, self-hypnosis, and hypnosis with children. Participants will choose sessions on the practice of hypnosis in their own medical, mental health, or professional specialization. It is estimated to be 20-24 hours of instruction and to be approved in advance by the American Society of Clinical Hypnosis (ASCH) as meeting criteria for Certification in Hypnosis by ASCH.

**Intermediate/Advanced Section Description**
This two day workshop will provide an overview of hypnotic strategies and suggestions for helping individuals better self-manage chronic pain conditions. It will begin with a discussion of the neurophysiology of nociception and pain, focusing on nine specific processes and physiological structures involved in pain perception, and that can be influenced by hypnotic suggestions. Evidence regarding the mutual effects between pain and other domains (e.g., obesity, thoughts, activity level, sleep, mood) will be discussed, and ideas for hypnotic suggestions and approaches for addressing all of these domains and processes will be generated. A model for performing a complete evaluation of the outcome domains that hypnosis can benefit in persons with chronic pain will be presented, and methods for developing a pain treatment plan based on this evaluation will be discussed. Strategies for integrating hypnosis with other approaches with proven efficacy (e.g., cognitive therapy and Motivational Interviewing) to enhance overall treatment benefits will also be introduced. The emphasis of the workshop will be on applied clinical techniques that are based on the most recent research findings; demonstrations, exercises and practice, and the opportunity for consultation will be included. After participating in the workshop, participants will have the resources and skills to evaluate a patient with chronic pain for hypnosis treatment, and design a treatment intervention that addresses the various problems identified.

**ELIGIBILITY AND TARGET AUDIENCE**
This conference is ideal for persons holding a Doctoral Degree in Medicine, Dentistry, or Psychology; persons holding a Master’s Degree in Social Work, Marriage and Family Counseling, or Clinical or Counseling Psychology who are licensed by the state/province in which they practice; a Registered Nurse with advanced subspecialty training and certification or a Master’s Degree; or a student actively enrolled in a graduate program leading to a degree in any of the foregoing. Master’s level, licensed health professionals (e.g., Occupational and Physical Therapists, Speech and Language Pathologists, et. al.) are also welcome and encouraged to attend.

**Intermediate/Advanced Workshop Requires Additional Eligibility:**
This conference is ideal for health professionals who have had previous formal training in hypnosis. Participants should have previous experience in performing hypnotic inductions and facilitating hypnotic phenomena.

**ACCREDITATION**
This activity has been planned and implemented in accordance with the Essential Areas and Policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of the University of Minnesota and the Minnesota Society of Clinical Hypnosis. The University of Minnesota is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

**American Medical Association/PRA**
The University of Minnesota is accredited by the Accreditation Council for Continuing Medical Education (ACCMCE) to provide continuing medical education for physicians.

**Physicians**
This live activity has been approved for AMA PRA Category 1 Credits™. The University of Minnesota designates this live activity for a maximum of 20.25 AMA PRA Category 1 Credits™ for the Workshops in Clinical Hypnosis - Introductory Workshop, and 17.0 AMA PRA Category 1 Credits™ for the Intermediate/Advanced Workshop.

**American Society of Clinical Hypnosis (ASCH)**
The American Society of Clinical Hypnosis Standards of Training Committee has approved the 45th Annual Workshops in Clinical Hypnosis – Introductory Workshop for 20.25 credits toward ASCH membership and/or certification and 17.0 credits toward the Intermediate Advanced Workshop.

**Minnesota Board of Social Work (BSOW)**
This activity has been approved by the State of Minnesota Board of Social Work for 20.25 continuing education hours for the Workshops in Clinical Hypnosis - Introductory Workshop and 17.0 continuing education hours for the Intermediate/Advanced Workshop.

**Minnesota Board of Marriage and Family Therapy (LMFT)**
The Workshops in Clinical Hypnosis has been approved by the Minnesota Board of Marriage and Family Therapy (CE: 2016-099) for 20.25 continuing education hours for the Introductory Workshop and 17.0 continuing education hours for the Intermediate/Advanced Workshop.

**Minnesota Board of Behavioral Health and Therapy**
The 45th Annual Workshops in Clinical Hypnosis - Introductory Section has been approved by the Minnesota Board of Behavioral Health and Therapy (2016.CE.055) for 20.25 continuing education hours for licensed professional counselors and licensed professional clinical counselors and 17.0 continuing education hours for the Intermediate/Advanced Workshop. The approval remains in effect for one year from April 4, 2016.
Minneapolis Board of Psychology
The Workshops in Clinical Hypnosis has been approved by the Minnesota Board of Psychology (Board Log # 201602.184) for 20.25 continuing education hours for the Introductory Workshop and 17.0 continuing education hours for the Intermediate/Advanced Workshop.

Other Licensed Health Care Professionals
Nurses, nurse practitioners, advanced practice nurses, and other health care professionals who participate in this CE activity may submit their Statements of Participation to their appropriate accrediting organizations or state boards for consideration of credit. The participant is responsible for determining whether this activity meets the requirements for acceptable continuing education.

DISCLOSURE POLICY
It is the policy of the University of Minnesota Medical School Office of Continuing Professional Development to ensure balance, independence, objectivity and scientific rigor in all of its sponsored educational activities. To review the complete Disclosure Policy visit www.cme.umn.edu/disclosure.

WORKSHOP LOCATION & OVERNIGHT ACCOMMODATIONS
Crowne Plaza Minneapolis West
3131 Campus Drive
Plymouth, MN 55441
www.CPplymouth.com
763-559-6600
800-227-6963

A block of sleeping rooms is available at the discounted rate of $119.00 per night plus the current state and local taxes. Please make your reservations directly with the hotel by the cut-off date of May 13, 2016, and request the U of M – Clinical Hypnosis block to receive the discounted rate. Reservations will be accepted based on space and rate availability.

Parking is complimentary and adjacent to the facility. Valet parking is available for $3.50 per day.

COURSE MATERIALS
Registered attendees will be emailed access instructions to view the presentations and the course materials online prior to the Workshop; and download or print for their use at the conference. Please note: NO services for printing syllabi are available on site during the conference. A printed syllabus will NOT be distributed at the Workshop. Presentations and other workshop materials will remain available on a designated website for several weeks following the Workshop.

REGISTRATION
Register by March 25 to receive the Kick-off Rate, or by May 6 to receive an Early Registration Discount! DUE TO MEETING SPACE LIMITATIONS, REGISTRATIONS WILL BE LIMITED. ON-SITE REGISTRATIONS MAY NOT BE ACCEPTED. Registration fees include continental breakfast, morning/afternoon breaks, lunch on Friday and Saturday, and course materials. Dietary restrictions should be indicated in advance; requests cannot always be honored on-site.

A letter of confirmation, driving directions and parking information will be e-mailed to you once we receive your completed registration with payment.

Group Registration
A minimum of 3 registrants is required for a group discount of $20 per person to be deducted from the corresponding fee listed on the registration form (page 6). Submit all registrations together with one check payment. Please send all registrations together with one check payment, or register members online by selecting the “Group Rate.” Online group registrations must be received within two business days from each other. NO refunds will be issued if a person from a group has to cancel or does not show up at the conference. Normal refund policy applies for complete group cancellations.

TO REGISTER
Online
To register online with Visa, MasterCard, or American Express for the Introductory Section, click here and for the Intermediate/Advanced Section, click here. In order to protect your credit card information, the Office of Continuing Professional Development (OCPD) does not accept credit card payments by phone, fax, mail, in person, or on-site.

By Mail
Mail your check (payable to The Regents of the University of Minnesota) with registration form to:
Office of Continuing Professional Development
MMC 293, G254 - Mayo Memorial Bldg
420 Delaware Street SE
Minneapolis, MN 55455

Cancellation Policy
In the event you need to cancel your registration, the registration fee, less a $50 administrative fee, will be refunded if you notify us by 4:30 p.m. CST on May 20, 2016. No refunds will be made after this date.

Questions?
If you have any questions, please contact the Office of Continuing Professional Development (OCPD) at (612) 626-7600, 1-800-776-8636, or e-mail us at cme@umn.edu.

WEBSITES

“Excellent faculty for training. Hypnosis magnifies our inner strengths.”
(MA/MS)
### Educational Objectives

Upon completion of this educational activity, learners should be better able to:

- List the stages of Hypnosis
- Describe hypnosis as a process of therapeutic communication
- Describe three induction methods
- Demonstrate three appropriate induction techniques
- Describe methods for deepening (intensification) of and re-alerting from hypnosis
- Outline applications for guided imagery
- Describe the use of hypnosis for pain control and stress reduction
- List applications and methods of hypnosis for children
- Outline a strategy for getting started using hypnosis in clinical practice

---

### Preliminary Agenda

*Curriculum and faculty are subject to change.*

### FREE FOLLOW-UP TRAINING

Introductory Workshop Participants are invited to a **free** follow-up training session.

**Session I:** June 22, 2016 6:00 pm to 8:30 pm @ 8085 Wayzata Blvd, Minneapolis, 55426, conference room on the lower level.

**Session II:** June 29, 2016 6:00pm to 8:30pm @ Carondolet Center, 1890 Randolph Ave., St. Paul, MN 55105

---

"Brilliant practical introduction. I went from hopeful to feeling confident that I will be able to develop this skill set."

(Michael Storr, MD)
Intermediate/Advanced Section

Hypnosis for Chronic Pain Management: Integrating Motivational Interviewing and Hypnotic Cognitive Therapy

Guest Faculty, Mark P. Jensen, Ph.D.

As Professor and Vice Chair for Research at the Department of Rehabilitation Medicine, University of Washington Seattle, Dr. Jensen has been developing and studying the efficacy of psychosocial pain treatments for almost 3 decades. He combines cognitive-behavioral, hypnotic, and motivational approaches to help patients/clients better manage chronic pain and its effects on their lives.

Dr. Jensen’s research focuses on the development and evaluation of measures of pain, pain beliefs, and pain coping strategies, and the development and evaluation of psychosocial pain interventions. Grants from the NIH and other funding sources allow him to test biopsychosocial models of chronic pain.

He has authored or co-authored more than 250 articles and book chapters; is currently the editor-in-chief of the Journal of Pain; has served as a consulting editor of the Annals of Behavioral Medicine; and is associate editor for the Clinical Journal of Pain and the Archives of Physical Medicine and Rehabilitation.

---

Educational Objectives

Upon completion of this educational activity, learners should be better able to:

1. Describe the neurophysiological basis of pain, and the implications of this for designing tailored and targeted hypnotic suggestions.
2. Delineate the cognitive and behavioral factors that influence pain and the value and implications of this for designing hypnotic suggestions that help clients shift from maladaptive to adaptive cognitive processes and pain coping behaviors.
3. Describe the ingredients of and perform a thorough evaluation of the psychosocial factors influencing pain and functioning, and design a treatment protocol that addresses each factor.
4. Describe and implement the integration of cognitive therapy and Motivational Interviewing with hypnosis treatment and how doing so can enhance treatment outcomes.

---

Thursday, June 2, 2016

6:00 PM  Registration/Check-In
6:55  Faculty Introductions - Daniel P. Kohen
7:00  Small Group Seminars, Tutorials, and Practice Sessions: Select one at time of registration.

- 1) Advanced Hypnosis Techniques: Reviewing the Work of the Masters (on video)-indentationRalph E. McKinney, Moderator
- 2) Hypnosis and Psychotherapy: Getting Started and Continuing On.............Helen C. Paul, Cheryl S. Bemel, & Scott Cruse

Participants are asked to bring SPECIFIC CASE EXAMPLES of:
1) Dilemmas encountered in adding hypnosis to psychotherapy;
2) uncertainty about using hypnosis in a particular case; (3) how and when to add hypnosis to psychotherapy.
3) New Developments in Brain-Body Interactions: How to Integrate Hypnosis into Treatment..................Alfred L. Cavel, Jr. & Mark B. Weisberg
4) Trance and the Treatment of Sleep Disorders...............Kevin M. Harrington
5) I am or I do: Reducing dissonance Between Values and Actions..................................................David Alter
6) Working with Challenging Emotion Using Hypnosis........Suzanne Candell

Friday, June 3, 2016

7:30 AM  Continental Breakfast/Registration/Check-In
8:00  Introductions and workshop overview
8:15  A guiding model: The Behavioral Inhibition and Activation Systems
8:30  Understanding the neurophysiology of pain and hypnotic analgesia; implications for developing hypnotic suggestions
10:00  Refreshment break
10:15  Performing a pain evaluation and developing a treatment plan
12:00  Lunch – Group Buffet with Faculty
1:00  Self-hypnosis for acceptance and comfort; demonstration and practice
2:30  Self-hypnosis for satisfying and restful sleep
3:00  Refreshment break
3:15  Integrating Motivational Interviewing and Hypnotic Cognitive Therapy for pain management; theory and demonstration
5:00  Adjourn

---

Saturday, June 4, 2016

7:15 AM  Continental Breakfast
7:30  MSCH MEMBERSHIP MEETING (MEMBERS ONLY)
8:00  MI as Hypnotic Cognitive Therapy: Skill development
- Persuasion exercise practice
- Open questions practice
- Identifying and reflecting key suggestions practice
10:00  Refreshment Break
10:15  MI as Hypnotic Cognitive Therapy: Skill development, continued
- Practicing reflection
- Demonstration 2
12:00  Lunch – Group Buffet with Faculty
1:00  Age progression for a comfortable and active life; demonstration and practice
2:15  Party exercise for identifying meaningful activities; demonstration and practice
3:30  Refreshment break
3:45  Summary and discussion of hypnosis for specific pain conditions (headache, complex regional pain syndrome, chronic widespread pain/fibromyalgia, low back pain).
5:00  Adjourn

---

Educational Objectives

Upon completion of this educational activity, learners should be better able to:

1. Describe the neurophysiological basis of pain, and the implications of this for designing tailored and targeted hypnotic suggestions.
2. Delineate the cognitive and behavioral factors that influence pain and the value and implications of this for designing hypnotic suggestions that help clients shift from maladaptive to adaptive cognitive processes and pain coping behaviors.
3. Describe the ingredients of and perform a thorough evaluation of the psychosocial factors influencing pain and functioning, and design a treatment protocol that addresses each factor.
4. Describe and implement the integration of cognitive therapy and Motivational Interviewing with hypnosis treatment and how doing so can enhance treatment outcomes.
