Emerging and re-emerging infections continue to challenge clinicians, infection control practitioners and public health officials alike. 2020 has been especially challenging due to the COVID-19 pandemic. Therefore, this year we especially give plenty of attention to what we have learned about COVID-19 to date. This continuing education conference, in its 26th year, provides a forum for authoritative presentations and discussions on the epidemiology, prevention, and control of diseases.

Keynote Address

Kathleen Neuzil, MD, MPH, FIDSA, FACP - Vaccine- COVID-19

Dr. Neuzil is the Myron M. Levine MD DTPH Professor in Vaccinology, a Professor of Medicine and Pediatrics, and the Director of the Center for Vaccine Development and Global Health (CVD) at the University of Maryland School of Medicine.

Audience

This conference is ideal for physicians, nurses, nurse practitioners, advanced practice nurses, pharmacists, physician assistants, infection preventionists, laboratorians, and public health professionals who are interested in new insights into "Emerging Infections in Clinical Practice."

Educational Objectives

• Discuss the most current knowledge about the epidemiology of COVID-19 in MN and recent status of vaccine candidates.
• Apply the recent updated CDC guidelines for treatment of sexually transmitted infections in practice.
• Describe pitfalls of antibiotic stewardship in the age of COVID.
• Describe what he multi inflammatory system in children syndrome is.
