Featuring talks from nationally and internationally recognized experts, this conference will provide essential updates for primary care practitioners managing patients with neurological conditions.

**Keynote Address**

Jon Hallberg, MD  
*A Primary Care Provider’s Prospective on Neurological Disorders*

Dr. Jon Hallberg is an Associate Professor in the Department of Family Medicine and Community Health at the University of Minnesota, where he is an award-winning physician and educator.

**Key Topics**

- Headache  
- Neuropathy  
- Neurological Problems during Pregnancy  
- Syncope

**Learning Objectives**

- Describe the role of monoclonal antibodies, “gepants” and onobotulinum toxin in people with medically refractory migraine.  
- Describe differential diagnosis and the latest information on pathophysiology of syncope as well as explain treatment options for syncope including new medications.  
- Define and distinguish minor cognitive impairment and dementia and discuss how to approach an elderly patient with memory complaints.  
- Discuss reversible causes of cognitive complaints and their workup and explain the efficacy of pharmacologic and non-pharmacologic treatments.
