Pediatric Dermatology Progress & Practices
APRIL 25, 2014

Purpose
Pediatric Dermatology is a young subspecialty and new to the University of Minnesota Amplatz Children’s Hospital. The pediatric population has special dermatologic needs, and the field of pediatric dermatology is devoted to meeting those needs through education and advances in research and clinical care.

Educational Objectives
Upon successful completion of this educational activity, participants should be better able to:

• Discuss the significance of recent updates regarding pediatric dermatologic disease processes for current and emerging therapies
• Evaluate the relative merits of standard and innovative therapeutic options for pediatric dermatological conditions
• Apply new approaches to the management of common and selected pediatric dermatological conditions when appropriate

Audience
This course is ideal for practicing pediatricians, dermatologists, family practitioners and allied health care providers interested in Pediatric Dermatology and for those who diagnose, manage and treat children with common and complex dermatologic diseases.

Accreditation
American Medical Association/PRA
The University of Minnesota is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

The University of Minnesota designates this live activity for a maximum of 3.75 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Nurse Practitioners, Nurses, and Other Health Care Professionals
Nurse practitioners, nurses, and other health care professionals who participate in this CME activity may submit their Statements of Participation to their appropriate accrediting organizations or state boards for consideration of credit. The participant is responsible for determining whether this activity meets the requirements for acceptable continuing education.
