Psychiatry Review
Navigating the Complexities of Trauma: Meeting the Needs of Patients and Providers

October 17-18, 2019
Westin Galleria Edina

Educational Objectives
Following completion of this activity, learners should be better able to:

• Describe how trauma relates to the development and chronicity of various psychiatric illnesses.
• Identify trauma-focused treatment strategies.
• Identify how trauma manifests in different cultures.
• Describe how patient stress/trauma can contribute to clinician burnout.
• Identify coping strategies to deal with clinician burnout.
• Identify national and local resources to support clinician well-being when caring for patients with a history of trauma.

Audience
Psychiatry Review is designed for psychiatrists and other physicians, nurses and nurse practitioners, psychologists, social workers, and other healthcare professionals.
