Psychiatry Review
The Challenges of Being a Mental Health Care Provider: Responding with Wisdom and Resilience

October 11-12, 2018
Westin Galleria Edina

Educational Objectives
Following completion of this activity, learners should be better able to:

- Identify treatment and outreach strategies for opioid and cannabis use disorders.
- Discuss current research findings in the development of cannabis and opioid use disorders in youth.
- Describe the factors contributing to clinician burnout as well as resources available to support provider well-being.
- Recognize personal and collective barriers to promoting diversity and inclusion in our practices, personal lives and in our communities.
- Describe a dimensional approach to characterizing individuals with personality-level dysfunction and new approaches to the treatment of borderline personality disorder.

Audience
Psychiatry Review is designed for psychiatrists and other physicians, nurses and nurse practitioners, psychologists, social workers, and other healthcare professionals who manage and treat patients.
